

# AM1/D2-5H

cylindrical inductive

Micro Detectors

Italian Sensors Technology

## Detection properties

|                     |                                                          |
|---------------------|----------------------------------------------------------|
| Operanting distance | 0...6mm                                                  |
| Standard target     | 18x18mm FE360                                            |
| Thermal drift of Sr | $\pm 5\%$ (0...+70°C); $\pm 10\%$ (-25°C...0°C)          |
| Repeat Accuracy     | 0,3mm (UB 20...30Vcc/Vdc Ta=23°C $\pm 5^\circ\text{C}$ ) |
| Resolution          | $\leq 1\mu\text{m}$                                      |

## Outputs

|                 |                |
|-----------------|----------------|
| Output type     | 0-10V + 4-20mA |
| Output Function | Analogue       |

## Electrical data

|                                |                                                                                   |
|--------------------------------|-----------------------------------------------------------------------------------|
| Operating Voltage              | 10...30Vdc                                                                        |
| No-Load supply current         | $\leq 12\text{mA}$                                                                |
| Load current                   | $\leq 10\text{mA}$                                                                |
|                                | 0V - 0 + 0,4V (23°C) +5,2V $\pm 0,4\text{V}$ (23°C) +10V $\pm 0,4\text{V}$ (23°C) |
|                                | 1000Hz                                                                            |
|                                | 4mA $\pm 0, \leq 8\text{mA}$ (23°C) 20mA $\pm 0, \leq 8\text{mA}$ (23°C)          |
|                                | 500Ω (UB = 15V) / 1kΩ (UB = 30V)                                                  |
| Max ripple content             | $\leq 20\%$                                                                       |
| Time delay before availability | $\leq 50\text{ms}$                                                                |

|                             |                                                                     |
|-----------------------------|---------------------------------------------------------------------|
| Short-circuit protection    | Yes                                                                 |
| Reverse Polarity Protection | Yes                                                                 |
| Max output current          | 4mA $\pm$ 0, $\leq$ 8mA (23°C) 20mA $\pm$ 0, $\leq$ 8mA (23°C)      |
| Maximum capacitance load    | 500 $\Omega$ (UB = 15V) / 1k $\Omega$ (UB = 30V)                    |
| Output voltage              | 0V - 0 + 0,4V (23°C) +5,2V $\pm$ 0,4V (23°C) +10V $\pm$ 0,4V (23°C) |

## Mechanical data

|                       |                     |
|-----------------------|---------------------|
| Mounting              | Partially Shielded  |
| Dimensions            | M12 x 1 / L = 60mm  |
| Weight                | 33g                 |
| Housing Material      | Nickel-plated brass |
| Connections           | M12 Plug            |
| Active Head Material  | PBT                 |
| Tightening torque     | 10Nm                |
| Operating temperature | -25°C...+70°C       |
| Diameter/Dimension    | M12                 |

## Test/Approvals

|                       |                                                |
|-----------------------|------------------------------------------------|
| Approvals             | CE                                             |
| EMC compatibility     | IEC 60947-5-2                                  |
| Shocks and vibrations | Vibration IEC 60068-2-6 / Shock IEC 60068-2-27 |
| Degree of protection  | IP67                                           |

## Accessories

|                      |              |
|----------------------|--------------|
| Supplied Accessories | 2 nuts M12x1 |
|----------------------|--------------|
